

## ECP-200 Electric Cremated Remains Processor

- Reduces cremated remains to fit standard sized urns
- Average processing time is 30 seconds or less
- Quiet and dust-proof.

## VPS-1 Processing Station

- Recovers dust when transferring cremated remains for operator safety
- Ventless design eliminates wall or ceiling openings
- Built in florescent lighting adds convenience and safety
- Steel frame construction, finished with heavy gauge stainless steel.

## Deluxe Processing Workstation

Similar features to the ECP and VPS-1 Processing station with additional benefits:

- Cooling station for cremated remains
- Built in temporary container filler
- No perforated screens or drums to clog and eliminates potential commingling.

## Three-body Cooler

- Safe storage until final disposition
- Thermostatically controlled system maintains constant temperature
- Removable shelves accommodate a mortuary cart or caskets
- On/Off switch, door-mounted thermometer and self-sealing magnetic door

## Auto-Loader

- Increases production & enhances operator safety
- Extends the cremation chamber floor life
- Offers a professional presentation during family viewing.

## M-Pyre™ Control System (Optional Features)

- M-pyre™ Network – Allows you to monitor production activity from a remote work station while capturing important vital production data during the cremation cycle. Through an internet connection, offers Matthews technician the ability to view equipment production “on line” to assist local operator with troubleshooting issues.

- M-Pyre™ Oxygen Sensor – Monitors oxygen during the cremation cycle and automates air and fuel input to create the fastest cremation time, lower fuel cost, provide cleanest emissions and reduce wear & tear on refractory.

# The Standard of Excellence in Cremation Solutions.

Matthews Cremation Division (MCD) represents over 100 years of experience in cremator technology and our equipment has set the standard of excellence for quality and performance. With over 3,000 installations in 50 countries, we are the oldest and largest manufacturer in the cremation industry.

From design through startup, our goal is to protect your interest and make certain that your investment in cremation equipment is supported with the foundation for long-term success. We'll determine your equipment needs, evaluate your facility, design floor plans, guarantee environmental acceptance, assist your contractors in the installation and provide on-site operator training.

**Our Matthews commitment is to go the extra mile...**

- Customized Return on Investment Analysis (ROI)
- Zoning Board Assistance
- Operator Certification
- 24/7 Customer Service
- Custom Engineering & Design
- Industry & Trade Support
- Widest array of cremation accessories
- Lease & Finance options.

## Highly advanced engineering. Highly efficient operation. Highly profitable results.

The Power-Pak II Cremation System represents the very latest in cremation industry technology. Designed to provide fully automated operation, the Power-Pak II is the fastest, most fuel efficient cremator in its class.

- **Automatic Operation** – The self-monitoring control system simplifies the cremation process, shutting itself off upon completion of the cycle
- **Operator Safety** – Underwriter's Laboratories (UL) listed represents the most widely recognized measure of safety and compliance, ensuring the safety of personnel and facilities

- **SMOKE-BUSTER™ 140** – This feature effectively consumes and destroys smoke and odor from the cremation process
- **Hydraulic Loading Table** – Conveniently allows one person to safely and easily load the case into the chamber, coolers, coaches and vans

- **Pollution Monitoring and Control System** – Automatically checks and regulates stack emissions.

The Power-Pak II is pre-wired, pre-piped, and pre-tested before shipment, requiring only off-loading, one connection each for gas and electricity and placement of the stack we provide.

### Quiet Operation–

Exclusive "Whisper Shield" allows operation without disturbing other services.

### Advanced PLC System –

10-inch Hi-Definition color touch screen monitor with simple graphic illustrations of everything happening during the cremation cycle.

### Stainless Steel Stack–

Non-Corrosive, with 4 1/2" refractory lining for strength, durability and safety.

### SMOKE BUSTER™

System–Complete combustion of smoke and odor

### Insulation Thickness–

12" of multi-component materials for longest lasting refractory and highest thermal efficiency.

### Retrieval System–

Retrieval of cremated remains is safe and quick with the convenient external collection hopper.

### Cremation Chamber Floor–

Unique "Hot Hearth" design eliminates fluid runoff and minimizes fuel consumption.

### Loading Door–

Self-locking, self-sealing door opens and closes at the push of a button.

### Power-Pak II Specifications:

Overall Height:	8' 4" (2.54 m)
Overall Width:	6' 5" (1.96 m)
Overall Length:	14' 6.75" (4.44 m)
Weight:	24,000 lbs. (10,886 kg)
Fuel:	Natural or L.P. Gas (Oil available)
Electrical:	220 volts, 1-phase/3-phase
Control panel can be located	right, left or remote
Dimensions include control panel and whisper shield.	

## Who is Matthews Cremation Division?

Matthews Cremation Division is the premier manufacturer of Industrial Equipment & Engineering (IEE) and ALL Crematory (ALL) cremation equipment. We are the global leader in cremation equipment sales, service and repair. Representing the highest standards for safety, we manufacture a wide range of human and animal cremation equipment. As a full-service provider, we offer accessory equipment, supplies and memorial products to meet your business requirements.

A significant number of our cremators are still operating, including some manufactured more than 40 years ago. Discover why Matthews Cremation Division is the most trusted name in cremation products and services.
